

It has come to my attention that the FCC wants to allow LPFM stations to take priority over my current FM translator service. I am very upset and very opposed to this. There are very few, if any, stations in my area that I want my family to listen to. I was so thankful when I was able to pick up K-Love. I live in the Bible Belt South and I can assure you the many congregations in Hope, Arkansas that worked so hard to get K-Love on the air here, will actively oppose this effort. We are a small town in Southwest Arkansas with very few choices and I believe the service provided by K-Love is one of the most important ways we have to gain an uplifting message while still being entertained. I urge you to keep in mind the hundreds of thousands of people who listen to K-Love and the repercussions that this decision would bring. Thank you for your support.
